Office Action Summary	Application No. 10/798,223	Applicant(s) SHARMA, ABHAY	
	Examiner Quang Nguyen, Ph.D.	Art Unit 1636	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 1-3 are pending in the present application, and they are examined on the merits herein.

Claim Objections

Claim 1 is objected to because of the term "novel" in the preamble of the claim. This is because the term is redundant because for a patentable invention, it must be novel. Additionally, the phrase "the steps of invention comprises" is not grammatically correct. Appropriate correction is required.

Claim 2 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 1. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k). This is because a subject in the methods of both claims 1 and 2 is *Drosophila melanogaster*.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1 and its dependent claims, there is no nexus or connection between the step (g) with any of the preceding steps (a) to (f) and any of the subsequent steps (h) to (g). Additionally, it is unclear what is encompassed by the phrase "treating the males of step (f) in the absence of neuroactive drugs in the medium". Which males of step (f)? Please note that in step (f) there are two male populations, one that has been treated with neuroactive drugs and the other that has not been treated with neuroactive drugs. Again, it is also unclear which males of step (d) are crossed with females never exposed earlier to any drug in step (h). This is because in step (d), there are two male populations, one that has been treated with neuroactive drugs and the other that has not been treated with neuroactive drugs. As written, step (m) is unclear. This is because why does the examination of the height climbed by flies of step (i) or F1 flies have anything to do with the inheritance of altered behavior to F2 progenies? Clarification is requested because the metes and bounds of the claims are not clearly determined.

Examiner notes that the prior art of record does not teach or suggest a method having steps (a)-(m) of the present invention.

Conclusions

No claims are allowed.

Patent applicants with problems or questions regarding electronic images that can be viewed in the Patent Application Information Retrieval system (PAIR) can now contact the USPTO's Patent Electronic Business Center (Patent EBC) for assistance. Representatives are available to answer your questions daily from 6 am to midnight (EST). The toll free number is (866) 217-9197. When calling please have your application serial or patent number, the type of document you are having an image problem with, the number of pages and the specific nature of the problem. The Patent Electronic Business Center will notify applicants of the resolution of the problem within 5-7 business days. Applicants can also check PAIR to confirm that the problem has been corrected. The USPTO's Patent Electronic Business Center is a complete service center supporting all patent business on the Internet. The USPTO's PAIR system provides Internet-based access to patent application status and history information. It also enables applicants to view the scanned images of their own application file folder(s) as well as general patent information available to the public.
